

# Congratulations!

We are pleased to announce the following psychology graduate students were awarded a 2018 National Science Foundation (NSF) Graduate Research Fellowship Program (GRFP) Fellowship. These awards are highly competitive, five year fellowships (or until graduation) with three years of financial support.

**Devika Basu**

Early Life Stress and Infant Rapid Weight Gain: Exploring the Role of the Gut Microbiome  
*Co-Mentors: Patricia Brennan, Ph.D. and Linda Craighead, Ph.D.*

**Anna Maria Hoffman**

The Encoding and Reactivation of Knowledge Across Languages  
*Mentor: Patricia Bauer, Ph.D.*

**Blaire Pingeton**

Fetal behavior, sex, and socioeconomic advantage: Testing links to early temperament  
*Mentor: Sherryl Goodman, Ph.D.*

**These students join our other NSF awardees in the Psychology Department:**

**Amanda Arulpragasam**

Testing a bias-integration model of frontal asymmetry in effort-based decision-making: a multimodal TMS/fMRI study  
*Mentor: Michael Treadway, Ph.D.*

**Cassie Hendrix**

Early Life Stress and Infant Brain Development  
*Mentor: Patricia Brennan, Ph.D.*

**Maria Jones**

The Effects of Cognitive Proximity on Children's General Knowledge Base Extension  
*Mentor: Philippe Rochat, Ph.D.*

**Andrew Persichetti**

Two Systems for Visual Scene Processing  
*Mentor: Daniel Dilks, Ph.D.*

**Brooke Reidy**

The Neurobehavioral Underpinnings of Child Sleep Disturbance and Emotion Regulation  
*Mentor: Patricia Brennan, Ph.D.*

**Jay Schwartz**

Vocal Correlates of Stress in Nonhuman Primates  
*Mentor: Dawn Kitchen, Ph.D. (The Ohio State University)*  
*Current Mentor: Harold Gouzoules, Ph.D.*
