Congratulations to Hyung Seo “Caroline” Lee, who has been selected as this year’s Dr. William A. and Courtney C. Gentry Award recipient.

This award is presented to a graduating psychology major who is enrolling in a graduate program in psychology or a related field. The recipient has maintained an outstanding academic record and performance at Emory and has the potential to make a strong impact on the direction of psychology.

During her time at Emory, Caroline has committed herself to furthering not only her research, but her connection with our community in the lab and beyond. Through service, mentorship and a fierce dedication for scholarly excellence, she has made a great impact as an undergraduate and we are proud to present Caroline with this award.

She will be pursuing Clinical Graduate (Ph.D track) training this fall with Dr. Mike Chmielewski in the Assessment, Measurement, Personality, and Psychopathology (AMPP) Lab at Southern Methodist University.
