December 4, 2017
4:30 p.m.
Psychology Building
Room 290
Reception to follow in 280 PAIS

Gregory P. Strauss, Ph.D.
Director, Clinical Affective Neuroscience Laboratory and Georgia Psychiatric Risk Evaluation Program (G-PREP)
Department of Psychology, University of Georgia

Pathophysiological mechanisms of negative symptoms in adults with schizophrenia and youth at clinical high-risk for psychosis

Dr. Strauss received his B.S. in Psychology from the University of Georgia (2002), and his M.A. (2004) and Ph.D. degrees in Clinical Psychology from UNLV (2008). After finishing his clinical internship at the University of Illinois at Chicago (UIC) Department of Psychiatry, he completed a two-year postdoctoral fellowship in cognitive neuroscience and schizophrenia research at the Maryland Psychiatric Research Center (2008-2010). He then served as an Assistant Professor of Psychiatry at the University of Maryland School of Medicine prior to moving to UGA in January 2017. He is director of the CAN Lab and Georgia Psychiatric Risk Evaluation Program (G-PREP). Dr. Strauss will be reviewing applications from students who are interested in applying to the UGA Clinical Psychology Ph.D. program this fall.
